DETAILED ACTION

Allowable Subject Matter

Claims 1 – 45 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record namely Goschy (US 6,545,661) teaches the use of a gun type controller that is handled by a user. The gun controller contains an accelerometer that senses the orientation that the gun is being held. This sensed orientation is then used as input to the game program to control the visual perspective of the avatar that is displayed on the game screen.

The prior art of record fails to teach a handheld gun peripheral that contains a coordinate control module that contains a motion sensor AND a game play control unit contained inside the handheld gun peripheral. The handheld gun peripheral also a controller that receives generated data from the coordinate control unit and the game play control unit. This data is processed the controller to provide a change of the avatars point of view (horizontal and vertical view point changes of the avatar) in the virtual environment of the game, and at the same time also provides a change in the longitudinal and latitudinal position of the avatar in the virtual environment while the user is handling the handheld gun peripheral.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
